

# UF MAXX

## DECODER CABLE

### DESCRIPTION:

Regency Wire 'UF MAXX' can handle tough applications with materials optimized for use in vibratory plow installations.

### STANDARDS AND SPECIFICATIONS:

- Durable construction
- 60 mil of insulation
- Unique high grade PVC compound that is up to 30% tougher than normal UF
- Tensile strength is increased by 18%
- Modulus is increased 10% over standard UF, yet still retaining excellent flexibility characteristics
- 11% more elongation capability

	Standard UF	UF MAXX Special Blend
